

Team Involvement in Demonstration

Project: Rising Water – AI-Based Flood Prediction System

1. Project Type

Individual Project

2. Demonstration Responsibility

Activity	Responsibility
Problem Explanation	Swetha Veluru
Dataset Preparation	Swetha Veluru
Machine Learning Model	Swetha Veluru
Flask Backend	Swetha Veluru
Frontend (HTML/CSS)	Swetha Veluru
Testing	Swetha Veluru
Documentation	Swetha Veluru
Project Demonstration	Swetha Veluru

3. Demonstration Flow

1. Introduce the project and its objective.
2. Explain the dataset and technologies used.
3. Show the web application.
4. Enter sample inputs and run a prediction.
5. Explain the probability and risk level.
6. Answer questions and discuss future enhancements.

4. Conclusion

As this is an individual project, all stages from design to implementation, testing, documentation, and demonstration were completed by the project developer.
